

Harry Semmes has been an invaluable board member since 1999 and as Chair of the Site Selection Committee Harry was key in securing the Linganore Woods building site. Harry's work on the board has also included major fundraising efforts, but despite his record of exemplarily service Harry remains modest. Fellow volunteer Flo Hunt has been quoted saying "I don't think he ever does a thing with the thought of taking credit for himself. I think he does things because he generally feels in his heart it is the right thing to do." HFH-MC has recognized Harry's immense contributions by granting him Board Member Emeritus status—the first in our history. In addition, *The Harry Semmes Outstanding Service Award* was created to honor Harry's legacy and annually recognizes a member of the Board of Directors (selected by their peers) for exceptional service and leadership to HFH-MC.
